

# Significant Health and Safety Aspects

RC REC 31-05

Hanwha Advanced Materials America

Process	Activity	Aspect (Hazard)	Impact (Risk)	Health and Safety Rating
GMT	Deburring or stacking of raw material	Posture during standing, bending, or twisting	Increased risk of ergonomic related injuries	197
Maintenance	Material catching on fire in the oven	GMT Oven	Damage to oven and building. Injury to team members	197
GMT	Deburring GMT parts	Use of knives/razors	Potential to be cut	192
Material Handling	Forklift Operation	Hazards associated with forklift operation, pedestrian traffic	Potential to be injured by forklift or materials	149
Maintenance	Maintenance on energized equipment.	Energized equipment hazards	Decreased employee safety, electrical shock.	138
